Experience

Co-Student.com

Full-Stack web developer & Founder

Co-Student is a multifaceted platform that combines social media and educational features to serve students globally. Its genesis stems from a desire to revolutionize education by creating a distraction-free platform. Co-Student was launched on February 2, 2023, after being developed by a frontend developer who acquired new technical skills. The goal is to continue developing Co-Student into an essential tool for students worldwide.

Highlighted Projects

OS system portfolio abomisir.com/pc/os

Explore my website that looks and feels just like Windows 11! Built with Next.js and TypeScript, it offers an immersive experience complete with popular applications like Google Chrome, Edge, and Visual Studio Code. With the ability to customize the background, turn the site on and off, and even restart it, this website is unlike anything you've ever seen before. Discover it now!

PoMatrix workflow.co-student.com

is the ultimate productivity app that combines the Pomodoro technique and the Eisenhower matrix. With drag and drop task management, completed task tracking, and a clock-dependent Pomodoro timer, PoMatrix is perfect for boosting your productivity. Try it today and start working smarter, not harder.
